- Unified rules on the form and content serve investor protection, comparability and increases transparency

- BS with several years of experience and expertise in the field of information distribution
- Europe-wide distribution on all relevant financial markets, websites, systems and frontends in the highest quality

- Selected and filterable data
- Distribution of KID Web Links
- Parameter controlled search for PRIIPs
- Programming of finders and search fields to ensure fast finding of the desired product + KID

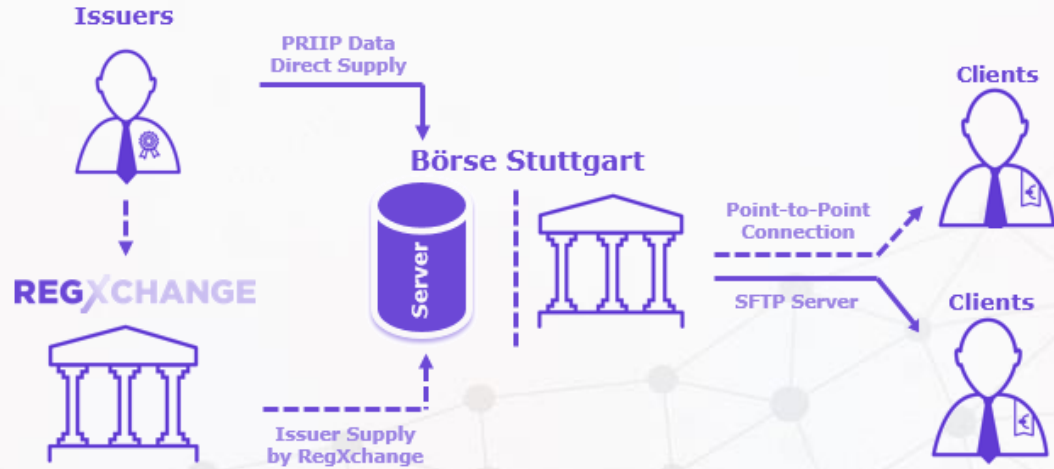

Information Products

Regulatory Data: [PRIIP Data Service](#)

Service offer

Contractual agreements between Börse Stuttgart and the connected PRIIP issuers ensure the delivery of the data. The PRIIP data of the issuers are taken over 1:1 and integrated into the data feed of Börse Stuttgart.

Automatic processing of the original data ensures low susceptibility to errors and excludes data loss with high degree of probability. The intraday delivery of the data by the issuer and its intraday processing and redistribution ensure that the data is up-to-date in the market. The links to the KIDs and the corresponding fields are accessible for each distributor.

Börse Stuttgart Digital Exchange

BSDEX as a strong partner for crypto trading

- The Börse Stuttgart Digital Exchange is the first regulated multilateral trading venue for digital assets in Germany that fulfills the regulatory requirements according to § 2 para. 12 KWG.
- From legitimation over trading to custody, all partners of BSDEX come from Germany. The safekeeping of the digital assets is done by blocknox GmbH, also a company of the Börse Stuttgart Group. The euro accounts are held at Solarisbank AG.

- ✓ First trading venue for cryptocurrencies regulated in Germany
- ✓ Full-Service-Offer including Trading, Custody, Compliance
- ✓ Connection via FIX or REST APIs possible
- ✓ 24/7 support through our Operations & Tech Team
- ✓ Personalized connection
- ✓ Full integration into existing back- and frontend systems

Börse Stuttgart Digital Exchange

Overview of the organizational set-up of the BSDEX

- The BSDEX is legally operated by Baden-Württembergische Wertpapierbörse GmbH (BWWB GmbH), which also acts as the sponsoring company of the public stock exchange.
- The technical operator of BSDEX is Börse Stuttgart Digital Exchange GmbH.
- BSDEX benefits from the far-reaching trading expertise of Börse Stuttgart Group - especially in terms of transparency, internal market surveillance and reliability.

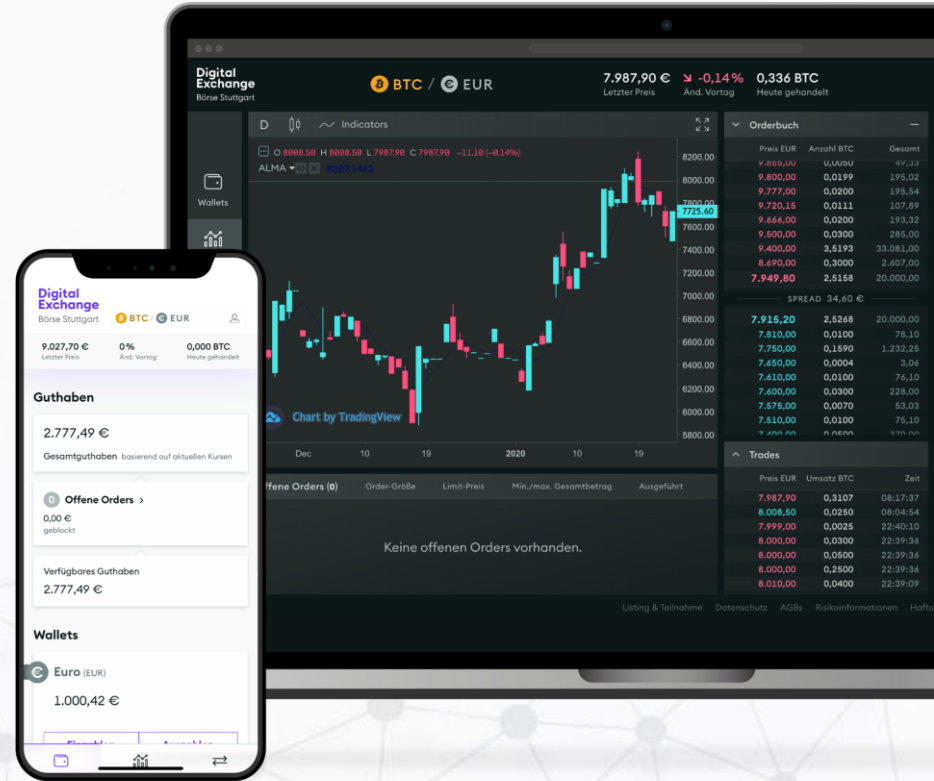

The trading venue BSDEX is operated by BWWB GmbH on the basis of § 2 para. 12 KWG. Especially with regard to trading organization, risk management and AFC/AML obligations, this gives BSDEX a first mover advantage over competitors in Germany as well as over unregulated crypto exchanges.

Börse Stuttgart Digital Exchange
